OUR CORE BUSINESS

LOGISTICS, DISTRIBUTION & STORAGE

Logistics and distribution are at the core of the business, shipping raw materials to where they can be refined or processed and then used or transported to areas where there is a deficit.

HALAAL ECOMMERCE PLATFORM

HALAAL.PLACE uniquely connect content and commerce. It is a content based website with a special focus on the multi-billion dollar verticals of Muslim Lifestyle Marketplace and it acts as a traffic feeder to HALAAL.PLACE.

MARKETING, STRATEGY & BRANDING

The data resulting from our commercial feasibility study give us a clearer understanding of the target groups we need to focus on during the marketing stage. This is where we build the strategic planning and business branding in our works.

DESIGN & ARCHITECTURAL

We work with our customers to identify and develop solutions which work best for them, helping them manage physical risk and optimize opportunities. Modern, functional building architecture with countrytypical design elements. Technical design According to the latest state of environmental and economic knowledge.

PT. PILAR AGRO NUSANTARA

We are Indonesian agribusiness, food commodity trading and food crop agriculture company, incorporated in Jakarta. The company is targeting for being an international halal meat exporter and other agricultural commodities, such as grains and oilseeds. The major commodities are the daily food staple involving food processing, grain trading, and fertilizer.

We combine our experience with new technologies and insights to serve as a trusted partner for food, agriculture, financial and industrial customers globally. Increasing global food security in the midst of climate change also means the right crops must be grown in the most productive places. Food must move from places of abundance to places of scarcity

The challenge is clear: the world needs to sustainably nourish a global population that will grow from 7 billion today to more than 9 billion people by 2050.

We distribute crops, meats, and connecting farmers directly to customers in ways can help to ensure food security as well as improve environmental efficiency locally and globally.

WE PROVIDE FOOD INGREDIENTS AND KNOWHOW TO SOME OF THE FOOD PROCESSING AND PROVIDE FOOD SERVICE BRANDS IN THE WORLD.

OUR CORE VALUE

PARTNERING WITH FARMERS

Investments in innovation and training will give farmers the tools they need to increase productivity and meet tomorrow's food demand. With better technology, better seeds, more scale and mechanization. If we create the right conditions and incentives, farmers can produce even more on existing farmland to satisfy the food needs of the future. Cargill supports farmers at all levels of production as they adapt to changing growing conditions, consumer demands and nutritional needs.

ROLE OF PRIVATE SECTOR

As a private-sector leader, we know we have a role to play in national and also global food security. We have a history of working in partnership with governments, multilateral organizations and civil society groups to develop long-term

DELIVERING SOLUTIONS

We collaborate with partners in the public and private sectors to find long-term solutions to end hunger and ensure all people have access to safe, nutritious and affordable food. Our employees provide hands-on support to organizations by making contributions and volunteering in local activities to relieve hunger and improve nutrition. We supply the growing world with halal food products from agricultural commodities such as grains and oilseeds, which includes in the daily food consumptions.

PT. PILAR NIAGA T A U L A D A N

We are a commodity trading company. We specialize in commodity and physical trading in various products such as base metals, medical PPE and agriculture. We envision ourselves to be a global and leading vertically integrated commodity trading house. We cherish and leverage our relationships with our suppliers and customers, and strive to add value across the supply chain.

Safety is our number one priority. We look to generate value from mine to market and also to prioritise value over volume in our investment decisions. We work to maximise value in other ways – for example, by developing new markets for our materials and by focusing on operating excellence to improve efficiency.

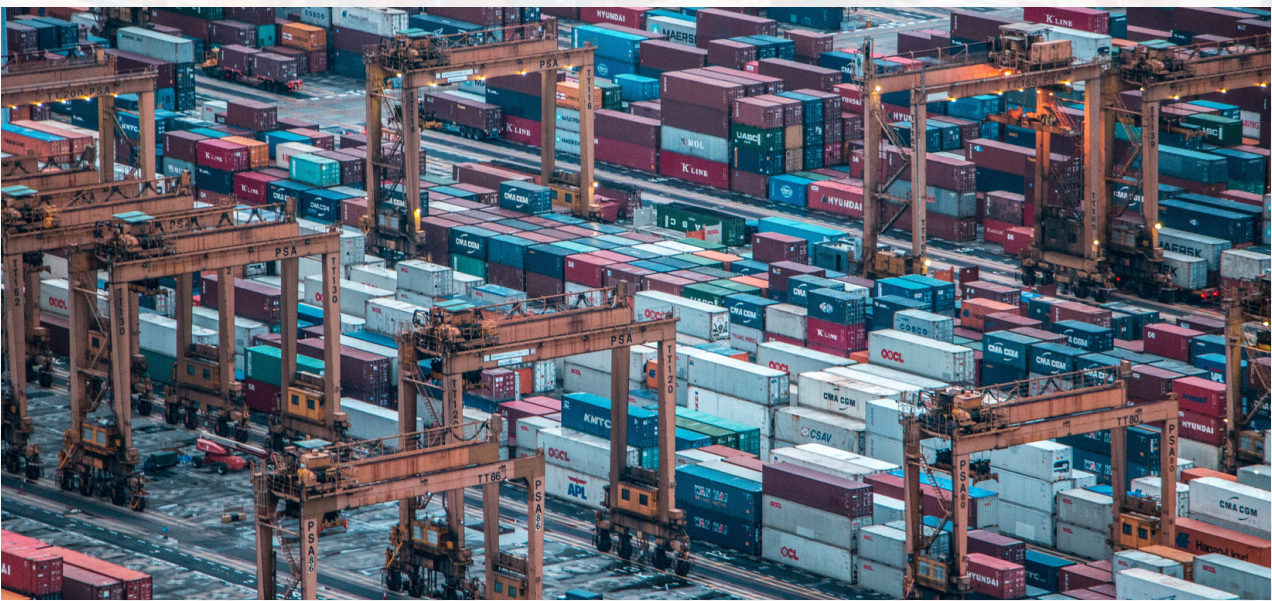

Robust risk management practices have established Us, as the preferred name and partner to growers, processors and trading houses alike along the value chain.

As we work around the clock every day to support our workforce, suppliers, customers and the communities in which we live and work, We draws on our experience navigating major global issues to mitigate the ongoing impacts of the pandemic.

WE ARE YOUR GLOBAL TRADE PARTNER

OUR CORE VALUE

TRADING

PGI is uniquely positioned as we leverage our extensive supplier network to source quality products at the most cost efficient manner. PGI offers a suite of financing, risk management, and logistics solutions tailored to each of our suppliers and customer's needs.

DISTRIBUTOR & PROCESSING

From the order process to delivery, PGI is at the forefront of providing excellent service by using continuous innovation in order to continue to satisfy our customers.

LOGISTICS & SHIPPING

We partner with an extensive range of logistics companies globally which allows us to execute safe and efficient transportation of our products over air, land, and sea. We can arrange and safely execute timely and cost-efficient transportation of different products, across various commodities from remote locations to urban centers.

MANAGEMENT SERVICES (Security, Parking and Cleaning service)

From safeguarding access in local companies to more complex multinational corporations, we build the backbone of our Security Access Control delivery with a need-and-risk assessment, Parking management and Cleaning Service.

PT. PILAR ANEKA TAMBANG

We are a mining company which processes a number of minerals as well as operating other businesses including trade and industry, transportation & other services related with the mining sector. We aim to deliver superior returns to our shareholders throughout the cycle by meeting our customers' needs, allocating capital with discipline, & investing in projects and in industries with solid, long-term fundamentals

Safety is our number one priority. We look to generate value from mine to market and also to prioritise value over volume in our investment decisions. We work to maximise value in other ways – for example, by developing new markets for our materials and by focusing on operating excellence to improve efficiency.

Our strategy is to create superior value for shareholders by meeting our customers' needs, maximising cash from our world-class assets and allocating capital with discipline.

15

pilargroupindonesia

pilar group indonesia

www.pilargrup.com

Our portfolio of low-cost, long-life assets delivers attractive returns throughout the cycle. After a significant portfolio reshaping, we are invested in commodities with strong long-term fundamentals and material growth opportunities.

WE DO THIS BY FOCUSING ON THE 'FOUR PS': PORTFOLIO, PEOPLE, PARTNERS AND PERFORMANCE.

OUR CORE VALUE

EXPLORE & EVALUATE

We use some of the most advanced exploration technologies in the world to find potential new sources of minerals and metals. And we consider new products and operations with an understanding of our customers' and communities' needs. We use some of the most advanced exploration technologies in the world to find potential new sources of minerals and metals. And we consider new products and operations with an understanding of our customers' and communities' needs.

MINE & PROCESS

A safe site is a productive site, and advanced technologies are playing a more important role in how we achieve both. We also share best practices across our assets to create safe, environmentally responsible working practices and a highperforming culture that targets production at lower costs.

MARKET & DELIVER

Our Commercial team ensure that we manage our products in line with market and customer needs. And our network of rail, ports and ships means that we can control end-to-end logistics.

REPURPOSE & RENEW

Each of our sites has rehabilitation plans that we review each year. We see this long-term approach – planning and operating with the future in mind – as integral to running a safe, responsible and profitable business.

REPURPOSE & RENEW

Data is one of our most valuable assets. We set up Centres of Excellence focused on analytics, automation, asset management, energy and climate change, orebody knowledge, underground mining, surface mining and processing.

PT. PILAR KARYA INFRASTRUKTUR

22

pilargroupindonesia

pilar group indonesia

www.pilargrup.com

OUR CORE VALUE

If you want consolidated shipments from multiple sources or need distribution to multiple customers, with us, you can do it all. We'll review the journeys of each SKU to determine its optimal path, and others similar. We will provide you with an "ideal" supply chain map based on your actual order history, product origin and destination, and estimates, and display key inventory stack locations, restocking schedules and fulfillment possibilities to achieve your customer's key performance indicators.

SAFE

We put safety first - for each other, our communities, and our environment. Our workplace is collaborative and supportive. We look after each other and are constantly working to improve the safety of our operations, from trucks and docks to warehouses and data centers.

RESPECTFUL

We heard. We are leaders in creating new markets, discovering opportunities without realizing it, and finding smart ways to tackle challenges because we listen to our employees, partners and customers. We work together to restructure how business gets done. Mutual respect for individual strengths drives this collaboration.

INNOVATIVE

We are curious. We push boundaries through game-changing ideas - the kind of progress others find impossible. We are passionate about investing in pioneering technology that will help our customers stay on top.

Halaal.Place

HALAAL.PLACE was developed with the intention to provide an online business to business marketplace platform for the ease of Global trade buyers and suppliers to source and sell quality Halal products and services in the world market. To serve our suppliers and buyers better, We have improved the B2B systems and included the Android mobile platform in the subscription with no extra cost.

HALAAL.PLACE extensive commercial networks and partner relationship with Halal Certification Bodies, Food and Beverage Trade Fair Organizers, Government bodies and semi Government agencies from around the world enhance our value proposition and frequently help us to bring more values to our buyers and suppliers.

HALAAL.PLACE is the first global Business to Business (B2B) Halal e-Commerce platform connecting Buyers and Sellers.

HALAAL.PLACE uniquely connect content and commerce. It is a content based website with a special focus on the multibillion dollar verticals of Muslim Lifestyle Marketplace and it acts as a traffic feeder to HALAAL.PLACE.
